

DE MAJO

IL DESIGN

Una generazione dopo l'altra, il vetro come arte di famiglia *Generation after generation, glass as family art*

Pochi anni dopo la sua fondazione (1947) la de Majo, senza mai rinunciare alla sua vocazione di azienda muranese, guarda al movimento del design italiano che si va affermando in tutto il mondo.

Lo osserva con un'intensità tutta particolare di chi sa dialogare quotidianamente con la purezza delle forme, coniugando sapientemente la passione artigianale con l'interpretazione produttiva contemporanea.

Without ever foregoing its mission as a Murano glassmaker, the company de Majo, just a few years after its foundation (in 1947), set its sights on the Italian designer goods movement, which is now gaining a foothold all over the world.

de Majo observes this movement with the particular intensity of those who work with purity of form on a daily basis, skilfully combining craftsmen's passion with the interpretation of contemporary manufacturing.

La de Majo Illuminazione ha origine nell'immediato dopoguerra ad opera di Guido de Majo, che dalla natia Napoli si trasferisce in laguna, e fonda, nel 1947, la sua prima fornace a Murano. Nonostante le piccole dimensioni degli esordi, sa rendersi da subito protagonista nella realtà vetraria muranese grazie ad un'oculata strategia aziendale sempre attenta alla qualità della produzione, sino a diventare in pochi anni una vera e propria industria. Il forte impegno verso il miglioramento continuo, ha sempre permesso al marchio de Majo di cogliere i nuovi fermenti che investivano l'industria del vetro. Quando negli anni Sessanta il design è entrato a far parte dello scenario produttivo, de Majo è stata tra le prime aziende ad investire nel settore, affiancando alle creazioni di alto artigianato tradizionale un'accurata produzione seriale, ed allargando perciò sensibilmente la propria fascia di mercato.

Sin da allora, è stato dato spazio a giovani designers la cui creatività ha potuto liberamente esprimersi per giungere al miglior risultato ottenibile: vale a dire un prodotto che, per quanto serializzato, mantenesse sempre un'anima, una coerenza progettuale in equilibrio perfetto tra esigenze estetiche ed esigenze funzionali.

L'attenzione e cura estrema nella lavorazione del vetro, per de Majo è storicamente andata di pari passo con le necessità di sicurezza sul luogo di lavoro e di rispetto per l'ambiente.

Oggi, l'azienda mantiene viva ed evolve l'antica tradizione muranese ricercando sempre nuovi linguaggi espressivi e offrendo al pubblico un'ampia panoramica sulle ultime tendenze del design: esercizi di stile pensati per la sensibilità di chi, anche nell'ambito del gusto contemporaneo, sa riconoscere gli autentici valori della qualità e dell'eleganza.

de Majo Illuminazione was first established at the end of the second world war by Guido de Majo, who, having left his native Naples, moved to the Lagoon, and in 1947 founded his first glassworks on the island of Murano. Although a small business concern at the beginning he knew how to transform it into an important reality in the world of Murano glass thanks to a company strategy built on quality production techniques turning this company, in just a few years, into a leading industrial enterprise.

This commitment, focalised on ongoing improvement, allowed de Majo to deal with new forms of pressure which were sweeping across the glass industry. In the 70's design became an important element in production and de Majo was one of the first companies to invest in this concept and introduced alongside the traditional high-quality crafted products, a standardised range expanding its own market considerably.

Since that point in time de Majo has always given young designers the right amount of freedom of creativity to achieve to best results possible which simply translates into a product, however "standard" with its own personality, and the perfect balance between lighting efficiency and appeal.

The meticulous care to detail and to production techniques for de Majo has always embraced the need for guaranteeing safety in the workplace and respect for the environment.

Today, this company maintains the early Murano traditions and at the same time strives for new style appeal offering customers a wide selection of current design trends for who with a taste for the contemporary appreciates authentic quality and elegance.

					LED PIN		G9

Le lampadine indicate sono quelle consigliate dalla D.M LUCE S.R.L. Con l'uso delle lampadine fluorescenti, la qualità estetica del prodotto potrà risultare meno appropriata.

The above bulbs are those recommended by D.M LUCE S.R.L. The use of fluorescent bulbs might alter the aesthetic quality of the product.

SIMBOLOGIA
SYMBOLS

 **La marcatura "CE" voluta dalla Comunità Europea con direttiva 93/68/CEE attesta la conformità dell'apparecchio ai requisiti richiesti dalle norme tecniche.**
The "CE" mark required by the European Community with the 93/68/CEE directive states that the luminaire complies with the European technical requirements.

 **Apparecchio nel quale la protezione contro la scossa elettrica si basa oltre che dall'isolamento principale anche dalla connessione delle parti conduttrici accessibili ad un conduttore di protezione dell'impianto elettrico fisso.**
Luminaire in which protection against electric shock does not rely on basic insulation only, but which are provided for the connection of accessible conductive parts to the protective conductor in the fixed wiring of the installation.

 **Apparecchio dotato di protezione contro la scossa elettrica basata sull'isolamento fondamentale e su misure supplementari quali il doppio isolamento rinforzato.**
The protection against electrical shocks of this luminaire is achieved by simple insulation and some other devices such as double insulation or reinforced insulation. There is no earth cable provided.

 **Apparecchio dotato di protezione contro la scossa elettrica basata sul fatto che in ogni punto dell'apparecchio la tensione di alimentazione e/o di funzionamento è inferiore a 50V.**
The protection against electric shocks of this luminaire is achieved by every component having a start/functioning voltage of less than 50VA.

 **Apparecchio non predisposto per il montaggio diretto su superfici normalmente infiammabili.**
Luminaire not suitable for direct mounting onto normally inflammable surfaces.

 **Indica che si possono installare delle lampadine a basso consumo di energia (tipo fluorescenti).**
This indicates you can use energy saving lamps (fluorescent lamps).

 **Apparecchio dotato di involucro protetto contro la penetrazione di corpi solidi superiori a 12 mm e non protetto contro la penetrazione di liquidi.**
The enclosure of this luminaire is protected against solid objects up to than 12 mm, no special protection provided against penetration of water.

 **Apparecchio dotato di involucro protetto contro la penetrazione di corpi solidi con dimensioni superiori a 2,5 mm e non protetto contro la penetrazione di liquidi.**
The enclosure of this luminaire is protected against solid objects up to than 2,5 mm, no special protection provided against penetration of water.

 **Apparecchio dotato di involucro protetto contro la penetrazione di corpi solidi con dimensioni superiori a 1 mm e non protetto contro la penetrazione di liquidi.**
The enclosure of this luminaire is protected against solid objects up to than 1 mm, no special protection provided against penetration of water.

 **Apparecchio dotato di involucro protetto contro la penetrazione di corpi solidi con dimensioni superiori a 1 mm e protetto contro gli spruzzi.**
The enclosure of this luminaire is protected against solid objects bigger than 1 mm and against splashes.

 **Apparecchio totalmente protetto contro la polvere e contro le ondate di acqua marina.**
Enclosure rated as dust tight and protected against heavy seas or powerful jets of water.

 **Apparecchio da dotare di lampadine tipo alogene autoprotette (a bassa pressione).**
This luminaire requires self-shielded tungsten halogen lamps (low pressure).

 **American Disability Act**

 **Certificato GOST-R**
GOST-R certificate

 **C-UL-US. Marchio di Conformità del prodotto ai requisiti di sicurezza canadesi e statunitensi.**
C-UL-US. This Listing Mark shows that the product is compliance with both Canadian and US safety standards.

ø: diametro diameter
l: larghezza width

h: altezza height
s: sporgenza protusion

Ferme restando le caratteristiche basilari del prodotto, D.M LUCE S.R.L. si riserva di apportare modifiche in ogni momento al solo scopo di miglioramento.
While maintaining the basic characteristics of the product, D.M LUCE S.R.L. reserves the right to make modifications at any time with the sole aim of improvement.
