The exclusive Savoy House Fan D'liers can actually help improve your life and your health. How can they do that? By using anions! Anions, or negatively-charged ions, are molecules often found near waterfalls, mountains and beaches—places where you breathe the air and feel refreshed. Anions help increase the flow of oxygen to your brain so that

you feel better: more energetic, more alert and less tired! They can also help reduce the particles in the air that cause irritations like coughing and sneezing. Savoy House Fan D'liers ionize and circulate the air so you're always breathing the best air possible. Plus, Savoy House Fan D'liers light the room beautifully!
