ORIGINAL LIGHTING DESIGNS

HANDCRAFTED IN AMERICA

SPECIFIED WORLDWIDE SINCE 1940.

MISSION

We are passionately devoted to creating fine artistic lighting and innovative studio glass that become the defining features of uniquely designed environments.

HISTORY

Lamps and objects to contain light sources are among the earliest design efforts, meeting a universal need with the human instinct to beautify and decorate. Every age from prehistoric times has left behind its decorative lamps, torchieres, or lanterns made to burn oil, wood, or wax, usually the work of individual craftsmen working in clay, metal, glass, or stone. When our company started, the name Fine Art Lamps was chosen to highlight a dedication to lighting design as an art form and an ancient tradition that would again be practiced by creative designers, artisans, and craftsmen.

Max Blumberg began his glass-making factory in the late 19th century, and by 1940 his son Jack founded Fine Art Lamps. He endeavored to gather the finest designers, sculptors, artisans, and decorative artists, many of whose talents had roots in the ancient crafts of Italy where they were born. From the beginning, Fine Art Lamps has been a design leader, creating true works of art – innovative designs, beautifully crafted forms of metal, glass, and unique materials with exquisite finishes. In the process, the company developed an artistic standard that has come to symbolize the Fine Lamps name today.

Since 1965 Jack's son Max has carried on the commitment of his grandfather and father to design excellence and superb workmanship. In 1976, the company moved to Miami and expanded to a state-of-the-art 300,000 square foot facility. Fine Art Lamps is proud of its pledge to manufacture in the United States of America, based on the belief that this insures design integrity, quality control, reliable delivery, and personal service. Today there are Fine Art Lamps galleries in over seventy countries around the globe.

Fine Art Lamps has been honored with numerous design awards, including the prestigious ARTS® Manufacturer of the Year Award an unprecedented nine times, and the company was the first to be inducted into the ARTS® Hall of Fame. Our unique designs are copyrighted and protected by several patents. Today our devoted team of in-house design and development specialists continue to explore new concepts. But the past is always present: Fine Art Lamps' collections from the 1940s and 50s have been shown around the country in museum retrospectives of the best decorative products of the era, and all our new designs continue to uphold the company's original mission.

QUALITY & CRAFTSMANSHIP — INSPIRED BY EXCELLENCE

Beauty is nothing without quality and for over a century, Fine Art Lamps has adhered to the highest standards of craftsmanship and durability to provide a product worthy of our customers' confidence. All principal design components are manufactured in-house, from glass-blowing to metalwork, under the supervision of the industry's foremost craftsmen and engineers. And before ever leaving our facilities, each piece is pre-assembled and rigorously tested by Fine Art Lamps' stringent quality control process.

Fine Art Lamps represents the singular vision of over 250 skilled designers, craftsmen, artists, and associates, working together to create unique works of art – a blend of Old World tradition melded with New World innovation.

FINISHES & CUSTOMIZATION — INSPIRED BY DETAILS

Exquisite finishes are the trademark of all Fine Art Lamps collections; many of the finishes require dozens of steps and applications to achieve the desired effect. Each piece is handcrafted with a unique finishing process, making it a one-of-a-kind work of art. Through our exclusive Customization Program, many of our products can be tailored to create your very own work of art. The Program allows you to select the finish, choose the shade type and make body design modifications. Our Customization Program offers added range and flexibility to enhance the décor and environments of discerning Fine Art Lamps' owners around the world ensuring that the human instinct to beautify and decorate will be satisfied once again.

FINE ART LAMPS STUDIO GLASS

The art of glass-making at Fine Art Lamps has its roots in the late 19th century when Max Blumberg opened a glass works in New York. Fine Art Lamps today in Miami has a state-of-the-art studio glass facility. It is a place of inspiration and creativity for glass artists and master glass craftsmen who come together to create glass art for lighting fixtures and site specific sculptural installations, for the residential and commercial projects of interior designers and architects.

The studio glass movement emerged in America in the mid-20th Century to encourage individual artists to create truly original and unique works of glass art in a setting dedicated to the creative process-this is at the core of our studio glass designs. Under the guidance of master glass blower and artist Frank Englesby, Fine Art Lamps has not only established a facility with capacity unmatched by any American lighting company, but has assembled an inspired and talented team.

The integration of studio glassworks with creative metalworks offers an unlimited range of custom design. New lighting technology such as LED has opened the door to totally innovative ways of lighting studio glass to highlight and enhance its unique characteristics. To quote Frank Englesby, "We are committed to keeping the American made tradition of studio glass in the forefront of design and to constantly push the boundaries of what may be impossible until it is possible."

SITE SPECIFIC CUSTOM PROJECTS

In our Fine Art Lamps studio glass facility, we collaborate with architects and designers on innovative site specific one-of-a-kind installations that rely on our glass artistry, metal capabilities, and capacity to fulfill large scale as well as small projects. True to our mission statement, these installations become the defining features of uniquely designed environments.

DESIGNER - ALEX WOOGMASTER

Inspired by the glow of history, Woogmaster studio founder Alex Woogmaster passionately designs objects and spaces meant to invoke the past, while embracing the present. His studio work is informed by the intrigue, grandeur, and subtle magic of great historic Architecture and Design examples, often understood through his own personal travel experiences. Woogmaster works to provide concepts that imbue the simplified needs of contemporary life with the grandeur of classical moments, and to bring senses of beauty and nostalgia into modern environments.

Alex Woogmaster received a degree in Architecture from Cornell University, and serves as Creative Director at Wynn Design and Development in Las Vegas.

 US/Intl Bulb: LED 2.5W (QTY 40)

Asked about the interpretation for "Lior", Alex responded: "Lior" in Hebrew can mean "My Light, and "Light to Me," both of which seemed appropriate for my first design collaboration with Fine Art Lamps. The fixtures are influenced by the ephemeral appearance of illuminated rock crystal, which has here been interpreted into handmade glassworks with the collaboration of the Fine Art Lamps studio glass master craftsmen. Lior is meant to evoke a primal sense of craftsmanship: formed of glass spires that mimic natural crystal formations as much as they do rays of sunlight, and clean metal lines in unadorned but precious finishes – all inspired by the raw sense of wonder Adam might have had upon first seeing Light on Earth.

US/Intl Bulb: Cree LED (QTY 24)
Glass Count: 12
Also available with large glass, see page 20.

A state-of-the-art dimmable LED collection of lighting fixtures and sconces conceived by Allison Paladino incorporates Fine Art Lamps exclusive studio process of dichroic rough-cut sculpted glass, conceived by Fine Art Lamps master glass artist Frank Englesby. Each rough cut gem glass is lit by (small and high efficacy) hidden LEDs, highlighting a dual-colored reflective brilliance. Dichroic glass was developed by NASA for use in space shuttles. Making dichroic glass requires complex processing technique in high-temperature vacuum chambers using vaporizing metallic oxides such as magnesium and titanium. The process requires 15 to 45 individual layers totaling a width less than a single human hair.

Fine Art Lamps Master Glass Artist Frank Englesby has been inspired by memories of childhood dreams: the heavenly light show that dances around the midnight moon hovering over the Arctic circle. Design Director Ian Thornton conceived lighting fixtures that captured this effect perfectly, in the form of shallow bowls, drums, shallow rings, waisted bodices, and cylinder sconces. Using thousands of hand made "rough cut" crystal gems made in Fine Art Lamps glassworks, Arctic Halo celebrates the refracted light of ice crystals carried by cirrus clouds and forming a lunar halo in the night sky. Available in soft tinted pale gold leaf, silver leaf, and black matte. Drums and rings with tightly woven white fabric diffusers.

CONSTRUCTIVISM

Constructivism as an architectural philosophy originated in Moscow in 1919 as an expression of Russian futurism. Our glass artist Frank Englesby has created a technique of crystal cobblestones in the spirit of Constructivism. Individually cast pillow-shaped glass pieces are fused at high temperature in a hand-laid cobblestone pattern of individual lenses creating a fascinating light diffuser and sculptural form. There are multiple sizes in both stepped and cylinder shaped sconces, square and round pendants on adjustable cables, and drop lights, all using incandescent candelabra-based bulbs. Exposed metal in hand-applied silver leaf finish.

A triumph of studio glass artistry!

†For an installation of multiple canopies we recommend an equal mix of each "Quartz" or Hailstones studio glass shape.

Mini Button Canopy

H. .5" x W. 1.4" (1 cm x 4 cm)

NO. 851840-xx

Does not include transformer. Remote transformers to be provided by installer. This item is a "UL Recognized" component to be used in a custom installation. Shown, 851840-13.

Dual Mount Canopy

H. 1.5" x W. 5.5" (4 cm x 14 cm)

NO. 852240-xx

Includes transformer and dual mount canopy with removable side wall ring. Shown, 852240-13.

Dual mount canopy shown with side wall ring removed for flush mount application with included transformer recessed into junction box.

Our Cabling System

Glass pendants are individually adjustable after installation for optimum composition. This is a major advantage compared to other drop pendant cabling systems that require cutting.

Cables are hand adjustable by simply pushing up to shorten the length. To increase cable length, push plunger up and pull cable out.

How to Order Multi-Glass Pendants

Select finish/glass suffix option from below and add to item base number. Clear and Natural "Quartz" studio glass options consist of four distinct forms. These two options are predetermined at approximately 25% per shape. Hailstones are predetermined at approximately 50% per size for quantities of 5 or more on a canopy.

Our Studio Glass is handmade individually.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.
*Master glass artisans blend "Quartz" with other minerals to create Clear and Natural Quartz glass drops.

Customization

As seen on page 61, Natural Inspirations has 16 canopy configurations. However, through Fine Art Lamps Customization Program we can make canopies to your specification in size and in number of drops with supplied appropriate transformer capacity. Canopies can be customized in finish and shape, including a version that has been coated with a base primer for you to paint to match your home decor.

CHRYSANTHEMUMS

The Chrysanthemum blossom is one of the great floral motifs in the history of design, in diverse cultures such as ancient Egypt, imperial Japan and early Roman. Here mum blossoms fashioned of unique custom crystals in three sizes, all with the top side smoothly domed and the flared bottom cut with Chrysanthemum petals. The crystals are arranged in naturalistic random floral clusters, illuminated from within by incandescent round vanity bulbs.

The lit effect is stunningly dramatic and casts very subtle patterns.

Perhaps the most elegant and graceful shape for a diamond is the marquise formed by two curves intersecting. This is the inspiration for a new collection of lighting by Fine Art Lamps. Available in Florentine brushed gold leaf with antiqued candlesticks, or platinized silver leaf with warm gray candlesticks. All with hand cut faceted crystals. Table lamp features marquise shaped, laminated cream or white fabric shade with stream-lined, rolled-over edges.

BEVELED ARCS

This ground breaking concept has dramatic sweeps of arcing beveled crystals, mounted with metal in a warm muted silver leaf or gold leaf finish. Exquisite and innovative, the Beveled Arcs collection is equally effective in dramatizing a traditional or contemporary setting. A true advancement in lighting design for the 21st century and beyond.

Look for the distinctive crystals, registered trademarks of Fine Art Lamps. (REG. U.S. PAT. & TM OFF.)

CRYSTAL LAUREL

To ancient Mediterranean peoples, laurel stood for victory, distinction and merit. The Greeks and Romans wove them into crowns and gave them as honors to heroes, athletes, or great poets. The laurel wreath became one of the most enduring design motifs of all time, and inspired Fine Art Lamps Crystal Laurel Collection of decorative lighting. Stylized crystal leaves with boldly cut facets reflect light in delicate patterns, and the hand-wrought metal forms are finished in antiqued warm silver leaf or gold leaf.

Inspired by the magnificent water displays of eighteenth century fountains, Cascades is a collection of unique lighting fixtures of exquisite grace. Metal frames of warm silver leaf support dramatically bold cascades of hand-cut crystals delicately woven together and trailing away like water droplets. Light playing on the crystals recalls the effect of sun or moon light animating cascading water. The extraordinary visual effect is that of falling water captured in mid-air.

The Winter Palace in St. Petersburg was the Romanov seat of power. In its glass-enclosed winter garden, crystal chandeliers and sconces illuminate the plants that create an illusion of summer in the midst of glacial winters. The Winter Palace Collection highlights brilliant icicle crystals clustered in palmette forms, or emerald-cut borders, mounted with iron in a warm silver leaf finish. Hand sewn shades of silk shantung.

Neujilly is an excursion into the realm of asymmetry. No two arms are alike, and viewing from different angles the overlapping linear interplay of steel suspended in space is endlessly seductive. Cylindrical crystal shades are meticulously scalloped on the interior to create a prismatic lighting effect. Shades are seated on hexagonal solid crystal bobeches.

Monceau is an exploration of geological faceting. The classical emerald cut is a rectangular composition with two short sides cut North & South and two long sides cut East & West. The top surface has a large rectangular plane that serves as a window with deep facets on four sides. The use of classical facets in crystal creates a modern on this large scale.

ALLEGRETTO

Allegretto, a musical tempo that is briskly bold yet relaxed, gives its name to a lighting collection created to the sound of music. Like a conductor directing his orchestra with artful movements of his baton, Fine Art Lamps made confidently bold, swift strokes in drawing Allegretto. The lines drawn for each piece in the collection make distinct, graceful gestures that timelessly span yesterday, today, and tomorrow, as the curves change direction gracefully with elegant simplicity.

PERSPECTIVES

Perspectives is inspired by the geometric interplay of angular forms whose beauty is the phenomenon of perspective. In the spirit of the modernist movement in architecture, the rectilinear forms seem to float. As one moves around the pieces, the ever-changing spatial relationships fascinate the eye. Sculptural and structural, the lighting forms are a strong visual focal point. A patinated golden bronze finish with shades of multi-tonal gold organza add a subtly varied and uniquely layered pattern of light in a room. Also available in warm muted silver leaf finish with shades of multi-tonal white crepe.

NO. 302-2VLTKIT (Silver vaulted ceiling kit)

The silver leaf fixtures have been specifically designed to use compact fluorescent/LED bulbs (dimmable or non). It is highly recommended to use only compact fluorescent/LED bulb(s) for this option. The heat generated from incandescent bulbs may affect the life and appearance of the laminated shade fabric and use of incandescent bulbs will void warranty claims.

(QTY 1)

The silver leaf fixtures have been specifically designed to use compact fluorescent/LED bulbs (dimmable or non). It is highly recommended to use only compact fluorescent/LED bulb(s) for this option. The heat generated from incandescent bulbs may affect the life and appearance of the laminated shade fabric and use of incandescent bulbs will void warranty claims.

Singapore in the 30's was a vibrant crossroads of Eastern and Western cultures. This was reflected in striking contemporary design, a look evoked by Fine Art Lamps today. Almond mica, hand-blown glass panels, orbs and pendants, combined with a brown patinated bronze or a warm muted silver leaf finish create the strong design statement and dramatic subtle lighting effects of Singapore Moderne.

PORTOBELLO ROAD

Of the vast array of chic design found among the London dealers of Portobello Road, the most sought after lamps and fixtures are those of the 1920's to 1940's. Fine Art Lamps has created original designs in this vibrant spirit: strong lines that break with the past and form a bridge to the future. Portobello Road emits an aura of chic in gold leaf, or silver leaf with hand-tailored silk shades.

In creating the nucleus of a new collection, Fine Art Lamps envisaged distinctly individual designs that communicate with each other in intimate harmony, the essence of a liaison. Each piece is unique in time and space, executed in hand-crafted metal with extensive component details and articulation, finished in a choice of antique hand-rubbed bronze or platinized silver leaf. The glass shades are hand-blown with random glass overlay hand worked by Fine Art Lamps glass artisans in clear glass with a partial, graduated satin frosting on lower portion that softens the effect of the candelabra based incandescent bulbs.

Taking inspiration from an iconic square in the heart of London, which is considered the most dynamic city today from the standpoint of smart style and design, Fine Art Lamps has initiated a lighting product program of gradually and steadfastly introducing solid brass transitional shapes in polished nickel. The umbrella for this developing collection is Grosvenor Square, filled with classical houses now being furnished with today's looks.

Features solid curved clear acrylic rods which refract light.

Drawing inspiration from the London of the 1820s, Fine Art Lamps fashions Eaton Place, a highly original group of lighting with strong traditional roots, of solid brass and steel in a rich dark brown patina with garnet undertones or a silver leaf finish. Unprecedented in scale and magnificence are the massive, fully faceted solid crystal bell-shaped pendants, urns and bobeches of optic quality. The shades are composed of faceted solid crystals mounted in metal frames, which create a stunning effect of refracted light.

The Monte Carlo Collection is dedicated to the halcyon days of an American princess. Grace of Monaco possessed poise, sophistication, and a taste for elegant design. Brilliant faceted crystals of massive scale adorn gracefully intersecting arms in a gently worn gold leaf finish. Hand-blown swirled crystallized glass shades are framed in gilded metal.

Our Studio Glass is handmade individually.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

Since the beginning of time, human beings have longed to live in the world of their dreams, a place of serene beauty. All of us aspire to bring our dreams to life, as we create our homes. In "A Midsummer Night's Dream", Fine Art Lamps offers us the chance to bring into our homes the eternal magic of summer moonlight in a romantic garden pavilion. Each creation has an elusive, dream-like quality, from the faceted crystal drops and cut crystal beads enriched with moon dust, to the delicate lines traced in iron in a moonlit patina. Behold a designer's reverie, rendered into reality to adorn a fantasy home with the magical illumination of a midsummer night's dream.

The Prussian designer Karl Friedrich Schinkel in the early 19th century championed the neoclassical Greek Revival style that inspires Fine Art Lamps new collection of lighting. Bold lines traced delicately by fine cut crystal beads. Available in weathered Prussian silver gray finish with or without hand sewn driftwood linen shades or Brandenburg gold leaf finish with or without hand sewn cream toned silk shantung shades.

Mounting colored gems creatively in metal is one of the oldest art forms, and survives today in the realm of jewelry. Fine Art Lamps, inspired by this grand tradition, has created jewelry for the home. Crystal gems in carefully chosen coordinating hues are mounted with a fine metal encasement and integrated into original metal lighting fixtures.

All of the designs are offered in a venerable bronze patina, variegated gold leaf, or vintage silver leaf.

AVAILABLE IN BRONZE, SILVER LEAF OR GOLD LEAF

Plain chain and/or plain canopy are also available to decrease the height on all hanging fixtures. Please contact your Territory Manager or our Account Services department for details.

ENCASED GEMS GEM FINISH REFERENCE SHEET

This original collection features three beautiful finishes; vintage silver leaf, variegated gold leaf, and venerable bronze patina. Every style in the collection is available in each of the three finishes with two crystal gem options; all clear crystal gems or a multi-color gem configuration designed to compliment the finish color as shown above. To order the item with the finish and crystal gemstone color configuration desired, please use the item's six-digit style number that indicates the desired finish with the crystal gem color extension (-1 Multi-color, -3 Clear). For additional information please contact your Territory Manager or Account Services Representative. NOTE: Any other selection of single crystal gem colors will be processed through our Customization Program.

The fabulous "cottages" of Newport stand as witnesses to America's Gilded age. Newport lends the luster of its name to a collection of lighting fixtures in iron with metal filigree galleries in burnished gold with silver highlights. Distressed mirror panels have a stunningly different look when illuminated from within. Taupe silk shades have unique matching metal filigree galleries.

VILLA 1919

In 1919, the architect Julia Morgan began work on San Simeon for W. R. Hearst, while Addison Mizner that year broke ground in Palm Beach for El Mirasol, his first major villa commission. Each architect designed custom lighting using finely wrought iron with shades of decorated mica, a mineral rare until the 19th Century, when reserves were found and mined in Africa. The lighting designs of Villa 1919, exquisitely hand-wrought of patinated iron, have delicately painted mica shades that cast a warm and welcoming glow and evoke the enduring style of turn-of-the-century America villas.

Scheherazade was the legendary storyteller of One Thousand and One Nights. Her name evokes an exotic world, where people lived in settings illuminated by lanterns fashioned of intricate metalwork and art glass blown in colors that bathed the pavilions and the people within them in a warm sensual glow. Fine Art Lamps Scheherazade hand-blown glass is offered in Sunset Red, Desert Sky, Amber Dunes, and Oasis Green, and combinations of these colors. The meticulously crafted metalwork is in an aged dark bronze finish.

Our Studio Glass is handmade individually.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

The mention of Castile conjures images of cool and graceful courtyards, of the gentle interplay of light and shadow over Moorish tiles, passing through filigreed ironwork and across the deep recesses of finely carved giltwood ornaments. Castilian decorative style in the 16th century inspires a collection of lighting which captures the beauty and Romance of Castile, through richly-wrought iron, with worn gold leaf highlights, gold-dusted blown glass, beige silk hand sewn shades with antiqued trimmings, and warm-toned mica panels.

STILE BELLAGIO

The loveliest village in all of Italy, Bellagio is a place of sheer enchantment that became a Mecca for international society. Its magnificent lakeside villas are the inspiration for "Stile Bellagio". Finely chiseled carvings and ornamental ironwork are finished in a crackled tortoise with muted silver leaf, mineral-stained crystal, hand-blown glass, and hand sewn shades of silk shantung.

Our Studio Glass is handmade individually.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

Pastiche, by definition a mixture of different elements, aptly describes the inspiration for this collection. From classical Greek forms to delicate chinoiserie accents and opulent finishes, Pastiche unifies diverse inspirations in an exquisite assortment of lighting products. Featuring finishes of warm silver leaf and gold stained silver leaf as well as delicate shades of silk and crystal accents, this collection is a testimonial to refined craftsmanship.

Our Studio Glass is handmade individually.

Slight variations in shape, size and markings are the characteristics that distinguish art glass from mass produced glass.

In Fine Art Lamps' glass studio, a "bakehouse" for crystal has been created by our glass makers, giving its name to a new concept of art-glass lighting. A five day process of creating by hand crystal spires and crystal river stones, then baking and annealing them for several days at high temperatures, forms a massive block which is then carefully polished. Bubbles and seeds form naturally in the slow bakehouse process, adding to the dynamic effect when the slabs are illuminated by hidden fluorescent light, bringing the entire crystal composition to life.

AVAILABLE IN BRONZE OR SILVER

Wall fixtures provide up and down wall washer lighting through translucent panels at each end.

CAPISTRANO

Inspired by classic elements in mission design, Capistrano is a stylized and contemporary offering. Featuring a warm bronze patina and striated champagne linen glass, these pieces offer a clean architectural design while emitting a warm inviting glow. The smooth finish and clean lines are complemented by details such as the chain and bolt shapes that carry the design elements throughout the collection.

As night fell, the feasts and celebrations of Southern Europe moved inside the Chateaux, and the light of hundreds of candles would cast a magic glow. These lighting designs inspired Fine Art Lamps to create "Chateau," an interpretation of the metal arts still found in Southern Europe. The finish is of a variegated rich umber patina with gold accents.

COSTA DEL SOL

C

D

Invoking the soothing salty breezes of the Mediterranean and the rich design traditions of these historic coasts, this collection of outdoor lighting is an example of classical elegance, featuring stylized quatrefoil designs in Marbella wrought iron finish. Subtle iridescent textured glass adds another element of beauty to these pieces.

BEEKMAN PLACE

Beekman Place is one of New York City's most sought-after residential addresses. A gracious ambiance that is elegant, but not too formal, impressive but not ostentatious. Georgian-style architecture dictates the façade, with handsome detail and a rich history. So it is with the latest Fine Art Lamps outdoor introduction — unequivocally elegant outdoor designs in weathered woodland brown with gold highlights and solid brass accents.

LOUVRE

A. NO. 542281 WALL MOUNT

Intl Bulb: Not available for export

Built as a royal palace, the Louvre stands at the heart of Paris, housing the world's greatest museum. In the days of Louis XIV, within the palace walls lived hundreds of artists and craftsmen, supplying the decorative needs of the court. The arcades of the Louvre, then as now, were lit by lanterns designed and made on site. Fine Art Lamps' Louvre collection of outdoor lighting designs is inspired by the simple yet elegant lines of the lanterns that have adorned the arcades of the Louvre for centuries. In a fine bronze finish with clear blown glass, Louvre is a strong addition to many architectural styles.

OUR "IN-HOUSE" CAPABILITIES

As a true vertical US manufacturer, Fine Art Lamps has the capabilities and flexibility to provide unique, custom product to meet the specific and discerning needs of the designer/architect/specifier. Our specialized Territory Managers are available to work with you on site, with your plans and concepts, to understand your complete lighting design requirements. Additionally, our in-house design staff is available to help your vision become a reality.

A GUIDE TO OUR CUSTOMIZATION PROGRAM

WHAT WE PROVIDE

In-line product modification

- Simple changes such as finish, shades and adding, or deleting crystals.
- Dimensional modifications to height, width, addition of lights and tiers.

Unique designs proposed by us to meet your concept requirements*

- Provide us your room setting and concept/product vision and we can design/modify original product custom made for your specific project needs.

Interpret, develop and manufacture your original designs*

- Provide us an original sketch/concept of your product design and we will introduce into our product development process from Engineering through Manufacturing.

HOW IT WORKS

Contact your local Territory Manager or Account Services Representative with your custom requirements. Once a custom request is received, we will provide a feasibility response within 24 hours and price quote within 2-3 business days. Additional time may be required for more complex or original designs. Upon budget/price acceptance, concept drawings will be provided (as needed) for your review and approval. Once approved drawings, purchase order and deposit/payment is received, our detailed engineering and manufacturing process is initialized.

Lead time: 8-12 weeks from order confirmation with deposit/payment. Additional time may be required depending on complexity and/or sourcing needs.

Pricing:

- Simple changes; finish, shade and crystal.
 - 1 change = 15% upcharge,
 - 2 changes = 20% upcharge,
 - 3 changes = 25% upcharge.
- Body modifications or new concepts will be reviewed individually and priced based on specifications and requirements.

*(Refundable design fee may apply)

- shade pattern from sconce NO. 787450 replaced
original glass shade of fixture NO. 591140-2

EXAMPLE OF BODY MODIFICATION

ORIGINAL SCONCE

NO. 808050

H. x" W. x" D. x" (x cm x x cm x x cm)

VILLA VISTA COLLECTION

CUSTOMIZATION FINISHED PRODUCT

- Changing from 1 light to 2 and 3 light versions.

New dimensions: H.18" W. 18" D. 8" (46 cm x 46 cm x 20 cm)

H. 24" W. 22" D. 8" (61 cm x 56 cm x 20 cm)

EXAMPLE OF NEW CONCEPT

ORIGINAL PENDANT

NO. 787240-2

H. 36" W. 10" (91 cm x 25 cm)

STACCATO COLLECTION

CUSTOMIZATION FINISHED PRODUCT

- pendant converted into a 4-light drop light

EXAMPLE OF BODY MODIFICATION

ORIGINAL CHANDELIER

NO. 701340

H. 59" W. 56" (150 cm x 142 cm)

BEVELED ARCS COLLECTION

CUSTOMIZATION FINISHED PRODUCT

- fixture made dramatically larger
- 2 times taller, and wider

New dimensions: H. 120" W. 79" (305 cm x 201 cm)

120"

Scale of original product vs. customized finish product

79"

EXAMPLE OF BODY MODIFICATION

ORIGINAL CHANDELIER

NO. 774540

H. 75" W. 75" (191 cm x 191 cm)
CRYSTAL LAUREL COLLECTION

Scale of original product vs. customized finish product

CUSTOMIZATION FINISHED PRODUCT

- fixture made almost twice as tall, with the same width
New dimensions: H. 130" W. 73" (330 cm x 185 cm)

EXAMPLE OF BODY MODIFICATION

ORIGINAL CHANDELIER

NO. 236840

H. 24" W. 46" D. 9" (61 cm x 117 cm x 23 cm)

VILLA 1919 COLLECTION

CUSTOMIZATION FINISHED PRODUCT

- 2 island fixtures were joined and decorative
element added in the center

New dimensions: H. 37" W. 110" (94 cm x 279 cm)

EXAMPLES OF FINISH CHANGE

ORIGINAL SCONCE

NO. 162150

A MIDSUMMER NIGHT'S DREAM COLLECTION

CUSTOMIZATION FINISH CHANGE

- Finish, crystal and shade change on sconce from
A Midsummer Night's Dream. Featured changes
originate from the Brighton Pavilion Collection.

Indoor Product

PRODUCT TERMINOLOGY

ADA Applicable

Any product identified as 'ADA Compliant' is regulated to be installed in hospitality areas that are appropriate according to the American Disabilities Act.

Fixture Height

Height is measured from the BOTTOM-MOST to the TOP-MOST point on the product, including any finials or fixed links. See diagrams below.

Shade Dimensions

The width of a shade is measured as the shade is orientated on the product. For example, a hexagon shade width is measured CORNER-TO-CORNER, while an octagon shade is measured FLAT-TO-FLAT.

The height of a shade is measured along the side of a shade as orientated on the product. For example, a hexagon shade is the shortest distance from the top corner to bottom corner. This dimension is not usually vertical but slanted.

Standard Chain Length

Most of our fixtures include 6' of standard chain, rod or cable.

Additional chain kits are available for purchase, please contact Fine Art Lamps Account Services Department at 305.821.3850 for availability and pricing information.

Outdoor Product

PRODUCT TERMINOLOGY

Backplate Height

Some of our fixtures include backplates that affix to the wall for installation. Backplate height is measured from the BOTTOM-MOST to the TOP-MOST points of the backplate. See diagram below.

Fixture Height

Height is measured from the BOTTOM-MOST to the TOP-MOST points on the product, including any finials. See diagrams below.

Standard Chain Length: Most of our fixtures include the following standard chain lengths:

- Medium Lantern - 6'
- Large Lantern - 8'
- Grande Lantern - 8'

Additional chain kits are available for purchase, contact Fine Art Lamps Account Services Department for availability and pricing information.
