MA[&]DE

Material & Design **2018**

linealightgroup

IT — Un'azienda ha una filosofia di progetto definita dalla sua storia e dalle sfide che l'attendono, dalla strada percorsa e ancora da percorrere. Linea Light Group da trent'anni concepisce la luce come un materiale con cui costruire ambienti e definire spazi. MA[&]DE è la collezione che più di ogni altra unisce design e tecnologia, una filosofia di progetto che nasce dalla volontà di definire un ideale di bellezza funzionale.

FR — La philosophie conceptuelle de l'entreprise est définie par son histoire, par les défis qui l'attendent, par le chemin parcouru et qui reste à parcourir. Depuis trente ans, Linea Light Group conçoit la lumière comme une matière avec laquelle créer des ambiances et définir des espaces. MA[&]DE est la collection qui, plus que toute autre, unit design et technologie, une philosophie conceptuelle qui naît de la volonté de définir un idéal de beauté fonctionnelle.

DE — Ein Unternehmen hat eine Projektphilosophie, die von seiner Geschichte und den Herausforderungen geprägt ist, denen sich das Unternehmen stellt, und vom Weg, den es gegangen ist und den es gehen wird. Seit dreißig Jahren nimmt die Linea Light Group das Licht als ein Material wahr, mit dem Umgebungen erschaffen und Räume definiert werden können. MA[&]DE ist die Kollektion, die mehr als alle anderen Design und Technologie verbindet, eine Projektphilosophie, die aus dem Willen heraus entstanden ist, ein funktionelles Schönheitsideal zu definieren.

ES — Una empresa tiene una filosofía de proyecto, definida por su historia y por los retos futuros, por el camino recorrido y por recorrer. Desde hace treinta años Linea Light Group concibe la luz como un material con el que construir ambientes y definir espacios. MA[&]DE es la colección que logra conjugar, mejor que ninguna, diseño y tecnología, una filosofía de proyecto, fruto de la voluntad de definir un ideal de belleza funcional.

PY — Концепция проекта определяется историей компании и теми целями, к которым она стремится, тем путем, который уже был пройден и тем, который еще предстоит пройти. Уже тридцать лет подряд Linea Light Group относится к свету как к материалу, который создает помещения и определяет пространства. MA[&]DE – это коллекция, в которой как ни в какой другой дизайн сочетается с технологией. В основе этого проекта лежит желание создать идеал функциональной красоты.

EN — A company has a design philosophy defined by its history and challenges ahead, the road traveled and still to go. Linea Light Group for over thirty years conceived light as a material wherewith build environments and define spaces. MA[&]DE is the collection that, more than any other, unites design and technology, a project philosophy built with designers' collaboration, defining a functional beauty ideal.

^{IT} — L'identità MA[&]DE risiede nell'innovativo concetto di design che caratterizza tutte le creazioni della collezione. Un design tecnologico, mai fine a sé stesso. Alla cura per i minimi dettagli si accompagna la ricerca dello snodo perfetto, per un movimento sempre fluido delle parti mobili. All'adozione di linee eleganti e minimali si unisce l'impiego di tecnologie non invasive.

^{EN} — The MA[&]DE identity lies in an innovative design's concept characterizing all collection's creation. A technologic design, not for its own sake. Meticulous attention to the smallest details is associated to the research for the perfect joint for a movable parts smoother movement. Attention to the aesthetic, elegant and minimal lines with non-invasive technologies.

^{FR} — L'identité MA[&]DE consiste dans le concept innovateur de design qui caractérise toutes les créations de la collection. Un design technologique qui n'est jamais une fin en soi mais. Le soin apporté aux moindres détails est uni à la recherche de l'articulation parfaite, pour un mouvement toujours fluide des parties mobiles. L'adoption de lignes élégantes et épurées est associée à l'emploi de technologies non invasives.

^{DE} — Die Identität von MA[&]DE liegt in dem innovativen Design-Konzept, das alle Leuchten der Kollektion auszeichnet. Ein technologisches und gleichzeitig zweckmäßiges Design, das den Leuchten einen echten Mehrwert verleiht. Die sorgfältige Ausführung jedes noch so kleinen Details ist mit der Suche nach dem perfekten Gelenk verbunden, das für eine fließende Bewegung der beweglichen Teile garantiert. Das elegante, minimalistische Design ist mit nicht invasiven Technologien verbunden.

^{ES} — La identidad MA[&]DE reside en el concepto innovador de diseño, que caracteriza todas las creaciones de la colección. Un diseño tecnológico, que va más allá de sí mismo. El cuidado de los mínimos detalles se conjuga con la búsqueda de una articulación perfecta para lograr un movimiento siempre fluido de las partes móviles. La adopción de líneas elegantes y minimalista se une al empleo de tecnologías no invasivas.

^{PY} — Самобытность MA[&]DE заключается в новаторской концепции дизайна, который характеризует все творения коллекции. Технологический дизайн, который никогда не является самоцелью. С продуманностью мельчайших деталей сочетается поиск идеального шарнира для обеспечения плавного движения подвижных элементов. Элегантные минималистские линии соседствуют с использованием неинвазивных технологий

^{IT} — Lavoriamo per garantire la massima efficienza in termini prestazionali, impiegando diodi Led di prima qualità e sempre di ultima generazione, tutti CRI90 per una fedeltà di riproduzione dei colori assoluta. Il confronto con le principali figure di riferimento del mondo della luce è continuo, per anticipare nuovi trend sia estetici che materici. MA[&]DE è Material & Design. MA[&]DE è arredare con la luce.

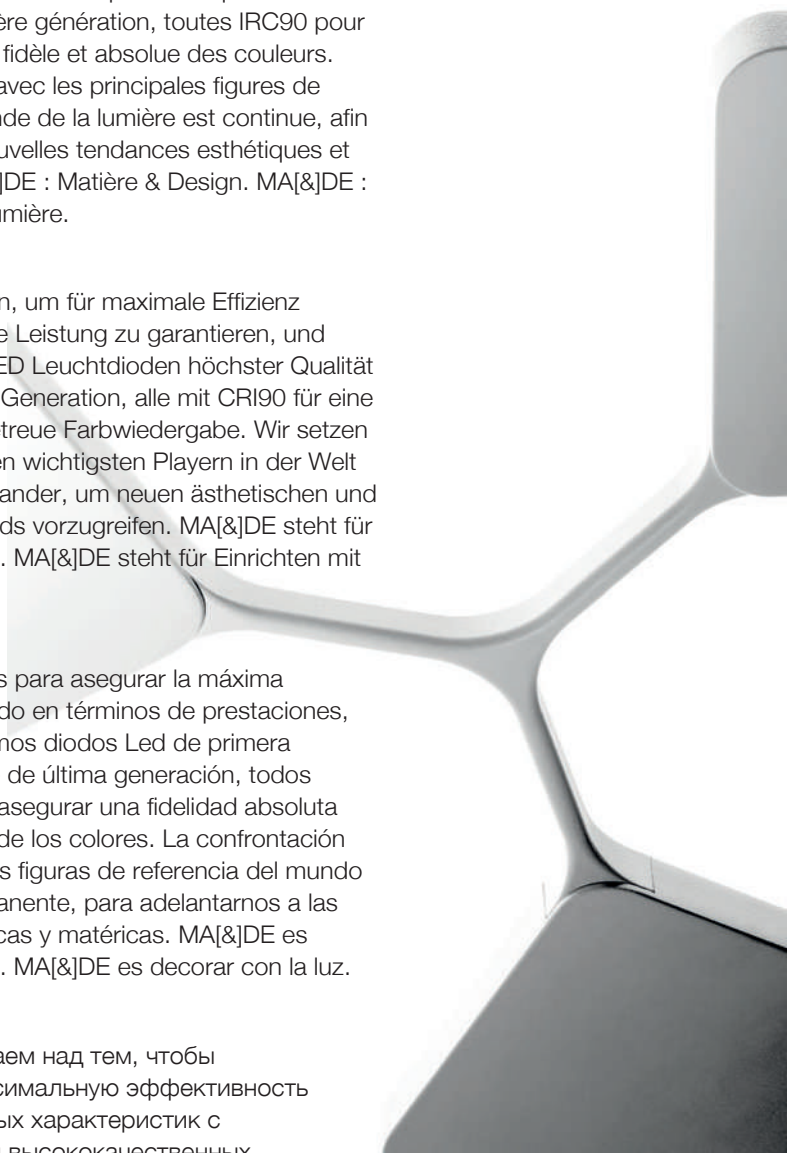

^{EN} — We work to ensure maximum efficiency in terms of performance, using top-quality and always last generation diodes, all CRI90 for the better color reproduction. We have a constant dialogue with the main lighting professionals to anticipate materials and esthetical trends. MA[&]DE means Material & Design. MA[&]DE is furnishing with light.

^{FR} — Nous travaillons pour garantir des performances d'une efficacité maximale, en utilisant des diodes Led de première qualité et toujours de dernière génération, toutes IRC90 pour une reproduction fidèle et absolue des couleurs. La confrontation avec les principales figures de référence du monde de la lumière est continue, afin d'anticiper les nouvelles tendances esthétiques et matérielles. MA[&]DE : Matière & Design. MA[&]DE : décorer avec la lumière.

^{DE} — Wir arbeiten, um für maximale Effizienz im Hinblick auf die Leistung zu garantieren, und verwenden nur LED Leuchtdioden höchster Qualität und der jüngsten Generation, alle mit CRI90 für eine absolut originalgetreue Farbwiedergabe. Wir setzen uns täglich mit den wichtigsten Playern in der Welt des Lichts auseinander, um neuen ästhetischen und materischen Trends vorzugreifen. MA[&]DE steht für Material & Design. MA[&]DE steht für Einrichten mit Licht.

^{ES} — Trabajamos para asegurar la máxima eficiencia, hablando en términos de prestaciones, para ello empleamos diodos Led de primera calidad y siempre de última generación, todos ellos CRI90 para asegurar una fidelidad absoluta de reproducción de los colores. La confrontación con las principales figuras de referencia del mundo de la luz es permanente, para adelantarnos a las tendencias estéticas y matéricas. MA[&]DE es Material & Diseño. MA[&]DE es decorar con la luz.

^{RU} — Мы работаем над тем, чтобы обеспечить максимальную эффективность эксплуатационных характеристик с использованием высококачественных светодиодов последнего поколения, все из которых имеют CRI90, гарантирующий точное воспроизведение цветов. Диалог с главными фигурами мира освещения является постоянным, что позволяет предвосхищать новые тенденции как в плане внешнего вида, так и материалов. MA[&]DE – это материалы и дизайн. MA[&]DE – это создание интерьера при помощи света.

5

YEARS WARRANTY

^{IT} — Linea Light Group offre una garanzia di 5 anni sui propri prodotti per vizi di fabbricazione previa compilazione dell'apposito modulo di attivazione, disponibile sul sito www.linealight.com. In mancanza di attivazione rimane valida la garanzia prevista per legge. I prodotti devono essere installati tassativamente con alimentazioni, cablaggi e accessori originali del Gruppo Linea Light, o eventualmente approvati dall'azienda. L'utilizzo di accessori non originali, o non approvati, determina il decadimento di ogni garanzia sul prodotto.

Per ulteriori informazioni, consultare il sito www.linealight.com

^{EN} — Linea Light Group offers a 5-year warranty on its products against manufacturing defects, subject to filling in the activation form available at www.linealight.com. In the absence of activation, the statutory warranty remains valid. All power supply, wiring and accessories used for product installation shall be original Linea Light Group parts or approved by the company. The warranty will become void if non original or non approved parts are used.

For more information, please visit our website www.linealight.com

^{FR} — Linea Light Group offre une garantie de 5 ans sur ses produits pour vice de fabrication à condition d'avoir préalablement rempli le formulaire d'activation correspondant, disponible sur le site www.linealight.com. En cas de non-activation, la garantie prévue par la loi reste valable. Les produits doivent impérativement être installés avec des alimentations, des câblages et des accessoires Linea Light Group, ou qui ont été approuvés par l'entreprise. L'utilisation d'accessoires non d'origine, ou non approuvés, entraîne la déchéance de toute garantie sur le produit.

Pour tout renseignement complémentaire, consulter le site www.linealight.com

^{DE} — Die Firma Linea Light Group gibt eine Garantie von 5 Jahren auf ihre Produkte in Bezug auf Produktionsfehler. Voraussetzung für die Inanspruchnahme der Garantie ist das Ausfüllen des entsprechenden Formulars zur Aktivierung der Garantie, das auf der Webseite www.linealight.com verfügbar ist. Wenn keine Aktivierung der Garantie erfolgt, gilt die gesetzlich vorgeschriebene Garantie. Die Produkte müssen obligatorisch mit Originalstromversorgung, Originalkabeln und Originalzubehör der Linea Light Group oder mit Teilen, die von der Linea Light Group ausdrücklich empfohlen sind, installiert werden. Die Verwendung von nicht originale oder nicht vom Hersteller empfohlenem Zubehör führt zu einem sofortigen Verfall vom Garantieanspruch für das Produkt.

Für weitere Informationen, besuchen Sie bitte www.linealight.com

^{ES} — Linea Light Group ofrece una garantía de 5 años para sus productos por vicios de fabricación previa cumplimentación del formulario correspondiente de activación, disponible en el sitio www.linealight.com.

En caso de no activación, la garantía es la contemplada por la ley. Los productos se han de instalar obligatoriamente con alimentaciones, cableados y accesorios originales de Linea Light Group o, de otra forma, deben ser aprobados por la empresa misma. El uso de accesorios no originales, o no aprobados, anula todas las garantías del producto.

Para más información, visite www.linealight.com

^{PY} — Linea Light Group дает 5-летнюю гарантию на свои изделия от дефектов производства после заполнения соответствующего бланка активации, который можно найти на сайте www.linealight.com. При отсутствии активации действует предусмотренная законом гарантия. Изделия должны обязательно устанавливаться с оригинальными или одобренными Linea Light Group блоками питания, проводами и аксессуарами. В случае использования неоригинальных или неодобренных производителем аксессуаров гарантия на изделия будет аннулирована.

Diphy

^{IT} — Un prestito dalla botanica, una silhouette leggera. L'estrema trasparenza del diffusore in PMMA fa da contraltare alla luminosità della lampada accesa, impreziosita dal caratteristico pattern di microincisioni al laser (OptiLight Technology™). Una sottilissima barra di alluminio verniciato bianco ospita la sorgente LED.

^{FR} — Un emprunt à la botanique, une silhouette légère. L'extrême transparence du diffuseur en PMMA contraste avec la luminosité de la lampe allumée, rehaussée de micro-incisions au laser (OptiLight Technology™). Une barre très fine en aluminium verni blanc accueille la source LED.

^{ES} — Un préstamo de la botánica, una silueta ligera. La extrema transparencia del difusor en PMMA contrasta la luminosidad de la lámpara encendida, embellecida por el modelo característico de micrograbados al láser (OptiLight Technology™). Una barra muy fina de aluminio pintado de color blanco aloja la fuente LED.

^{EN} — A loan from botany, a slight silhouette. The extreme transparency of the PMMA diffuser is in contrast to the brightness of the lamp lit, embellished with a characteristic micro laser-engraved pattern (OptiLight Technology™). An extra thin white painted aluminum bar houses the LED light source.

^{DE} — Ein Ausflug in die Botanik. Eine Anlehnung an die Botanik mit leichter Silhouette. Die extreme Transparenz des Diffusors aus PMMA bildet einen harmonischen Gegensatz zur Helligkeit der eingeschalteten Leuchte, die durch das charakteristische Muster aus Laser-Mikrogravuren an ästhetischem Wert gewinnt (OptiLight Technology™). In einer sehr schmalen Aluminiumleiste mit Lackierung in Weiß befindet sich die LED-Lichtquelle.

^{PY} — Заимствование из ботаники с легким силуэтом. Исключительная прозрачность рассеивателя из ПММА контрастирует с яркостью включенной лампы, украшенной характерным узором лазерных микронасечек (OptiLight Technology™). В тонкой линейной лампе из выкрашенного в белый цвет алюминия располагается светодиодный светильник.

Oxygen

IT — Tante varianti dalla geometria archetipica e riconoscibile. Come un leggero anello di aria e luce, il vivace paralume in poliuretano abbraccia il diffusore circolare in PMMA, invisibile a luce spenta. A lampada accesa, l'elegante trama dell'OptiLight Technology™ ne enfatizza l'estetica.

FR — De nombreuses variantes à la géométrie archétypale et reconnaissable. Comme un léger anneau d'air et de lumière, le vif abat-jour en polyuréthane embrasse le diffuseur circulaire en PMMA, invisible quand la lumière est éteinte. Quand la lampe est allumée, l'élégante trame de l'OptiLight Technology™ souligne son esthétique.

ES — Numerosas variantes de la geometría arquetípica y reconocible. Como un anillo ligero de aire y luz, la pantalla alegre de poliuretano envuelve el difusor circular de PMMA, invisible con la luz apagada. Con la lámpara encendida, la elegante trama de la OptiLight Technology™ enfatiza su estética.

EN — Available in different options, all sharing an archetypic and recognizable geometry. Like an air and light slight ring, this vibrant polyurethane lampshade encompasses the round diffuser made of PMMA, which is completely invisible when light is off. When light is on, the elegant weave created by the OptiLight Technology™ emphasizes its aesthetics.

DE — Viele Varianten einer archetypischen Geometrie mit einem hohen Wiedererkennungswert. Wie ein leichter Ring aus Luft und Licht umarmt der lebhaftes Lampenschirm aus PU den runden Diffusor aus PMMA, der bei ausgeschaltetem Licht unsichtbar wird. Bei eingeschalteter Leuchte betont die elegante Struktur der OptiLight Technology™ die Ästhetik.

PY — Множество вариантов узнаваемой архетипной формы. Подобно легкому кольцу воздуха и света игривый абажур из полиуретана таит в себе круглый рассеиватель из ПММА, невидимый при выключенном свете. При включенном светильнике элегантно плетение OptiLight Technology™ подчеркивает его внешний вид.

Tablet

^{IT} — Una luce nitida, radente o diffusa disposta su un asse girevole. Il supporto in alluminio consente l'orientamento della sorgente e del fascio luminoso, garantendo una rotazione completa, per una luce d'accento o espansa. Tablet è luce mai ferma, disponibile in diverse varianti, in finitura bianca o nera.

^{FR} — Une lumière nette, rasante ou diffuse disposée sur un axe pivotant. Le support en aluminium permet l'orientation de la source et du faisceau lumineux, garantissant une rotation complète, pour une lumière accentuée ou diffuse. Tablet est une lumière jamais immobile, disponible dans différentes versions, avec une finition blanche ou noire.

^{ES} — Una luz nítida, rasante o difusa sobre un eje giratorio. El soporte de aluminio permite orientar la fuente y el haz luminoso al garantizar una rotación completa, para proyectar una luz localizada o expandida. Tablet es luz siempre en movimiento, disponible en distintas variantes, con acabado en blanco o negro.

^{EN} — A clear, grazing or diffusive lighting, displaced on turning axis. The aluminum support allows light beams and source orientation, granting a complete rotation and creating accent or wide lighting. Tablet is light always on the move. It is available in different versions, both in white or black finish.

^{DE} — Ein klares, gerichtetes oder diffuses Licht, angeordnet auf einer Drehachse. Die Halterung aus Aluminium erlaubt das Ausrichten von Lichtquelle und Lichtstrahl und die komplette Rotation der Leuchte, für eine Akzentbeleuchtung oder ein breitflächiges Licht. Tablet ist Licht, das niemals stillsteht, und in verschiedenen Ausführungen mit weißer oder schwarzer Oberfläche erhältlich.

^{PY} — Четкий скользящий или рассеянный свет, располагающийся на крутящейся оси. Алюминиевая опора позволяет поворачивать источник света и световой пучок, обеспечивая полное вращение для направленного или рассеянного освещения. Tablet – это свет в постоянном движении, который предлагается в различных вариантах с белой или черной отделкой.

Quad

^{IT} — Semplicità modulare. Quadrati che scivolano l'uno sull'altro, fondendosi ad angolo retto, oppure strutture a sospensione plastiche e geometriche. Il corpo in alluminio pressofuso ospita la sorgente LED, le forme semplici e stondate sono una sintesi perfetta tra dinamicità e morbidezza.

^{FR} — Simplicité modulaire. Des carrés qui glissent l'un sur l'autre et qui fusionnent à angle droit ou des structures en suspension plastiques et géométriques. Le corps en aluminium moulé sous pression accueille la source LED. Ses formes simples et arrondies sont une synthèse parfaite entre dynamisme et douceur.

^{ES} — Sencillez modular. Cuadrados, que se deslizan unos sobre otros, fundiéndose en ángulo recto, o estructuras colgantes plásticas y geométricas. El cuerpo de aluminio moldeado a presión aloja la fuente LED; las formas sencillas y redondeadas son una síntesis perfecta entre dinamicidad y suavidad.

^{EN} — Modular simplicity. Shifting squares merging at right angle or plastic and geometric suspensions. The die-cast aluminium casing holds the LED source, with its rounded and simple shapes. A perfect synthesis between dynamicity and smoothness.

^{DE} — Modulare Schlichtheit. Quadrate, die sich in rechten Winkeln übereinander schieben oder plastische, geometrische hängende Strukturen. Das Gehäuse aus Aluminiumdruckguss, in dem sich die LED Lichtquelle befindet, ist mit seinem einfachen und abgerundeten Design die perfekte Synthese von Dynamik und sanft geschwungenen Formen.

^{PY} — Модульная простота Два квадрата, скользящие по направлению друг к другу и сливающиеся под прямым углом в одно целое, или же пластичные геометрические подвесные конструкции. В литом под давлением алюминиевом корпусе располагается светодиодный источник, простые закругленные формы которого представляют собой идеальную комбинацию динамичности и мягкости.

La Mariée

IT — Globi eterei soffusamente illuminati. La luce diviene tutt'uno con il vetro soffiato, gioca con i riflessi delle forme curvilinee e con i diversi colori. Diffusore trasparente, fumé oppure ramato per lampade fortemente espressive, piccoli spozalizi di luce e materia.

EN — Softly lit ethereal globes. The light becomes one with the blown glass, creating effects through the reflections of curvilinear shapes and different colours. Transparent, smoked or copper diffuser for highly expressive luminaires, where light and material meet.

FR — Des globes éthérés doucement éclairés. La lumière ne fait qu'une avec le verre soufflé, elle joue avec les reflets des formes curvilignes et les différentes couleurs. Diffuseur transparent, fumé ou cuivré pour des lampes fortement expressives, de petits mariages entre lumière et matière.

DE — Ätherische Kugeln, die gedämpftes Licht abstrahlen. Das Licht wird eins mit dem mundgeblasenen Glas und spielt mit den Reflexionen der geschwungenen Formen und den verschiedenen Farben. Ein Diffusor in der transparenten Ausführung, rauchgrau oder kupferfarben für extrem ausdrucksstarke Leuchten, bei denen Licht und Materie zu einer Einheit verschmelzen.

ES — Globos etéreos teñidos de luz. La luz se integra en el vidrio soplado, juega con los reflejos de las formas curvilíneas y con los varios colores. Difusor transparente, ahumado o cobrizo, para lámparas sumamente expresivas, pequeñas uniones de luz y materia.

PY — Мягко освещенные воздушные шары. Свет становится единым целым с дутым стеклом, играя с отблесками изогнутых форм и различными цветами. Прозрачный, дымчатый или медный рассеиватель придает особую выразительность этим маленьким светильникам, объединившим в себе свет и материю.

Mongolfier

^{IT} — Raffinata leggerezza di linee avvolgenti. Una struttura organica che si avvolge su sé stessa, in metallo verniciato nero opaco oppure con finitura lucida nickel nero e oro rosa. Grazie alla tecnologia di dimmerazione Warm Tune™ la luce varia contemporaneamente in intensità e temperatura colore, seguendo le esigenze ambientali.

^{FR} — Légèreté raffinée de lignes enveloppantes. Une structure organique qui s'enveloppe sur elle-même, en métal verni noir opaque ou avec finition brillante nickel noir et or rose. Grâce à la technologie de variation Warm Tune™, la lumière varie en même temps d'intensité et de température de couleur, selon les besoins de l'espace.

^{ES} — Ligereza refinada de líneas envolventes. Una estructura orgánica, que se enrolla sobre sí misma, de metal pintado negro mate o con un acabado brillante níquel negro u oro rosa. Con la tecnología de regulación Warm Tune™, la luz cambia al mismo tiempo en intensidad y temperatura color para adaptarse a las exigencias ambientales.

^{EN} — Refined lightness wrapping lines. Organic self-wrapped structure, available in two finishes: matt black coated metal or black and pink gold nickel glossy finish. Thanks to the LED Warm Tune™ dimmable technology the light varies intensity and color temperature simultaneously, following all the needs of interior designers.

^{DE} — Elegante Leichtigkeit umhüllender Linien. Eine organische Struktur, die um sich selbst gewickelt ist, aus Metall mit Lackierung in Mattschwarz oder mit glänzender Oberfläche in schwarzem Nickel oder Rotgold. Durch die Warm Tune™ Dimmer-Technologie können sowohl Intensität als auch Farbtemperatur des Lichts gleichzeitig geändert und so an die Anforderungen der Umgebung angepasst werden.

^{PY} — Изысканная легкость уютных линий. Конструкция органичной формы, замкнутая сама на себе и изготовленная из металла, выкрашенного матовой темной краской или с блестящей отделкой из черного никеля или розового золота. Благодаря технологии регуляции яркости света Warm Tune™ свет меняет одновременно интенсивность и цветовую температуру в зависимости от потребностей освещения обстановки.

Circle Wave

^{IT} — L'incresparsi delle onde viene congelato e trasformato in un disco di luce. Il corpo è in alluminio bianco, il doppio guscio del diffusore è in PMMA termoformato satinato bianco. Una miscela di trasparenze e sfumature affiora dalla luce calda morbidamente diffusa.

^{FR} — Le mouvement des vagues s'imprime et se transforme en disque lumineux. Le corps est en aluminium blanc, la double coquille du diffuseur est en PMMA thermoformé satiné blanc. Un mélange de transparences et de nuances, effleuré par la lumière chaude, douce et diffuse.

^{ES} — Las olas encrespadas se congelan y transforman en un disco de luz. El cuerpo es de aluminio blanco, la carcasa doble del difusor es de PMMA termoformado, satinado en blanco. Una mezcla de transparencias y matices aflora de la luz cálida suavemente difusa.

^{EN} — Waves rippling is frozen and turned into a lighting disc. Aluminum casing in matt white finish and white PMMA thermoformed satin-finished double shell. A transparency and shading mixture derives from the diffusive and smooth lighting.

^{DE} — Der Schwung der Wellen wird eingefangen und in eine Scheibe aus Licht verwandelt. Das Gehäuse ist aus weißem Aluminium, die doppelte Hülle des Diffusors aus thermogeformtem PMMA mit satiniertes, weißer Oberfläche. Eine Mischung aus Transparenz und Nuancen und schafft ein weiches, warmes und diffuses Licht.

^{PY} — Волнистая рябь, застывшая и превратившаяся в световой диск. Корпус из белого алюминия, двойная оболочка рассеивателя из горячеформованного сатинированного белого ПММА. Теплый и мягкий рассеянный свет создает микс прозрачных элементов и оттенков.

Kyklos

^{IT} — Un corpo orbitante alto solo due centimetri. Kyklos_P1 è un anello in poliuretano espanso, bianco o nella nuova finitura bronzo, a emissione indiretta. Kyklos_P2 ha un secondo anello superiore riflettente, capace di trasformare la lampada in sorgente a doppia emissione.

^{EN} — Orbiting casing two centimeters thick. Kyklos_P1 is a polyurethane ring with indirect light emission, available in white or in the new bronze finish. Kyklos_P2 with a second upper ring, transforming the luminaire in doubled emission.

^{FR} — Un corps orbital haut de seulement deux centimètres. Kyklos_P1 est un anneau en polyuréthane expansé blanc ou dans la nouvelle finition bronze, à émission indirecte. Kyklos_P2 présente un second anneau supérieur réfléchissant, capable de transformer la lampe en source à double émission.

^{DE} — Ein nur zwei Zentimeter großer Himmelskörper im Orbit. Kyklos_P1 ist ein Ring aus PU-Hartschaum in Weiß oder mit der neuen Oberfläche in Bronze und indirekter Lichtabstrahlung. Kyklos_P2 verfügt über einen zweiten, reflektieren Ring, der Leuchte in eine zweiflammige Lichtquelle verwandelt.

^{ES} — Un cuerpo orbitante de dos centímetros solamente de altura. Kyklos_P1 es un anillo de poliuretano expandido, blanco o en el nuevo acabado de bronce, con emisión indirecta. Kyklos_P2 presenta un segundo anillo superior reflectante, que transforma la lámpara en una fuente de emisión doble.

^{PY} — Вращающийся корпус высотой всего два сантиметра. Kyklos_P1 – это кольцо из белого пенополиуретана или с новой бронзовой отделкой с отраженным излучением. Kyklos_P2 имеет второе верхнее отражающее кольцо, которое способно превратить светильник в источник двойного излучения.

Reflexio

^{IT} — Innovazione invisibile all'occhio, nascosta, per questo ancora più bella. La luce viene diffusa dal riflettore a cupola e si espande in tutto l'ambiente. L'abbagliamento diretto è totalmente assente. Interamente in metallo, è disponibile nelle varianti cromatiche bianco e nero.

^{FR} — Une innovation invisible à l'œil nu, cachée, et donc encore plus belle. La lumière est diffusée par le réflecteur en coupole et s'étend à tout l'espace. L'éblouissement direct est totalement absent. Entièrement en métal, elle est disponible en blanc et en noir.

^{ES} — Innovación invisible para el ojo, oculta, más bella todavía por eso. La luz es difundida por el reflector en cúpula y se expande por todo el ambiente. El deslumbramiento directo desaparece totalmente. Totalmente de metal, existe en las variantes cromáticas de los colores blanco y negro.

^{EN} — Innovation that is invisible to the eye, hidden, and therefore even more beautiful. The light is diffused by the dome reflector and spreads throughout the environment. Direct glare is totally absent. Made entirely of metal, available in white and black.

^{DE} — Eine für das Auge nicht sichtbare, verborgene Innovation, die deshalb umso schöner ist. Das Licht wird von einem kuppelförmigen Reflektor abgestrahlt und verbreitet sich im ganzen Raum. Die Beleuchtung ist absolut blendfrei. Mit Innenseite aus Metall, erhältlich in den Farben Weiß und Schwarz.

^{PY} — Невидимая глазу, но от этого еще более прекрасная инновация. Свет рассеивается купольным отражателем и распространяется по всему помещению. Прямой слепящий эффект полностью отсутствует. Светильник полностью изготовлен из металла и предлагается в варианте белого или черного света.

Oblix

^{IT} — Elemento dalla forma volutamente imperfetta e dinamica, dalle linee arrotondate e dal profilo asimmetrico, in contrasto con ambienti rigorosi. In polietilene bianco, è dotato di attacco magnetico altamente performante, solidale con la base in alluminio.

^{EN} — This luminaire has been deliberately designed with a dynamic and quite imperfect shaped object, contrasting with rigorous architecture. In white polyethylene, it is integrated with the aluminum base with a very performative magnetic clamp.

^{FR} — Élément à la forme volontairement imparfaite et dynamique, avec des lignes arrondies et un profil asymétrique, en contraste avec des espaces au style rigoureux. En polyéthylène blanc, elle est équipée d'une attache magnétique très performante, solidaire avec la base en aluminium.

^{DE} — Elemente mit gewollt unvollkommener und dynamischer Form, abgerundeten Linien und einem asymmetrischen Profil, das einen Kontrast zur strengen Umgebung bildet. Aus weißem Polyethylen mit leistungsstarkem Magnethalter, der fest mit dem Fuß aus Aluminium verbunden ist.

^{ES} — Elemento con una forma deliberadamente imperfecta y dinámica, con líneas redondeadas y un perfil asimétrico, en contraste con ambientes rigurosos. De polietileno blanco, presenta un enganche magnético de altas prestaciones, fijado en la base de aluminio.

^{PY} — Элемент с нарочито несовершенной и динамичной формой с закругленными линиями и асимметричным профилем, контрастирующим со строгой обстановкой. Светильник, изготовленный из белого полиэтилена, имеет очень функциональное магнитное крепление, представляющее одно целое с алюминиевой основой.

Square

IT — Materia tattile su forme semplici, rigorose oppure organiche. Il diffusore in polietilene trova collocazione in un corpo in legno verniciato bianco o in finitura cemento, per un effetto di porosità in linea con le tendenze contemporanee, volte al materico.

FR — Une matière tactile sur des formes simples, rigoureuses ou organiques. Le diffuseur en polyéthylène trouve place dans un corps en bois verni blanc ou en finition ciment, pour un effet de porosité en ligne avec les tendances contemporaines qui se concentrent sur la matière.

ES — Materia táctil en formas sencillas, rigurosas u orgánicas. El difusor de polietileno se aloja en un cuerpo de madera pintado de color blanco o con acabado de cemento, para obtener un efecto de porosidad en sintonía con las tendencias contemporáneas, enfocadas a lo matérico.

EN — Tactile material over neat, clear and organic shapes. Polyethylene diffuser is housed in a white painted wood casing, available also in a concrete finish, for a porous effect following the contemporary trends.

DE — Fühlbare Struktur in besonderen Formen, die streng und gleichzeitig organisch sind. Der Diffusor aus Polyethylen ist an einem Gehäuse aus Holz mit Lackierung in Weiß oder mit Oberfläche in Zement angebracht, für einen porösen Effekt, ganz auf einer Linie mit den materischen Oberflächen, die im Trend liegen.

PY — Тактильный материал на простых строгих или природных формах. Рассеиватель из полиэтилена размещается в деревянном корпусе, выкрашенном в белый цвет или в корпусе с цементной отделкой, создающей эффект пористости в духе последних тенденций, отдающих дань фактурности.

Entourage

^{IT} — Una cupola, forma archetipica reinterpretata in ottica contemporanea. Rivestita con nuovi materiali, al polietilene si aggiungono le audaci finiture cemento, cortén e gesso. La tecnologia Warm Tune™ permette di dimmerare l'intensità luminosa variando contemporaneamente la temperatura colore.

^{FR} — Une forme archétypale, la coupole, est réinterprétée dans une perspective contemporaine. Elle est revêtue de nouveaux matériaux : au polyéthylène s'ajoutent les finitions audacieuses ciment, corten et plâtre. La technologie Warm Tune™ permet de varier en même temps l'intensité lumineuse et de la température de couleur.

^{ES} — Una cúpula, una forma arquetípica reinterpretada en una óptica contemporánea. Revestida con nuevos materiales, los atrevidos acabados en cemento, corten y yeso se suman al polietileno. La tecnología Warm Tune™ permite regular la intensidad luminosa al variar al mismo tiempo la temperatura color.

^{EN} — A dome, revisited archetypic shape in contemporary twist. Covered with new finishes, adding to opal polyethylene the concrete, corten and plaster daring finishes. Warm Tune™ technology allows dimmable luminous intensity and color temperature control simultaneously.

^{DE} — Die klassische Form einer Halbkugel in einer modernen Interpretation. Zu den neuen Materialien der Oberfläche kommen neben Polyethylen auch die gewagteren Versionen aus Zement, Corten und Gips. Die Warm Tune™ Technologie erlaubt es, gleichzeitig die Helligkeit und die Farbtemperatur zu ändern.

^{PY} — Архетипная форма купола, интерпретированная в современном ключе. Отделка из новых материалов: наряду с полиэтиленом используется смелая отделка из цемента, кортена и гипса. Технология Warm Tune™ позволяет регулировать яркость света, одновременно изменяя цветовую температуру.

Opti-Line

^{IT} — Evoluzione dell'iconica O-Line, il corpo sospeso è una lastra in PMMA caratterizzato da microincisioni al laser (OptiLight Technology™) che distribuiscono la luce nel piano sottostante. La trama è esteticamente elegante a lampada accesa, mentre a luce spenta scompare nel diffusore completamente trasparente. Montatura in alluminio lucido o verniciato bianco.

^{FR} — Évolution du produit emblématique O-Line, le corps suspendu est une plaque en PMMA caractérisé de micro-incisions au laser (OptiLight Technology™) qui distribuent vers le dessous la lumière. La trame est esthétiquement élégante quand la lampe est allumée, tandis qu'elle disparaît dans le diffuseur entièrement transparent quand la lumière est éteinte. Monture en aluminium brillant ou verni blanc.

^{ES} — Evolución de la icónica O-Line, el cuerpo suspendido es una plancha de PMMA, caracterizado por micrograbados al láser (OptiLight Technology™), que distribuyen la luz en la superficie inferior. La trama resulta estéticamente elegante con la lámpara encendida mientras que, con la luz apagada, desaparece en el difusor completamente transparente. Estructura de aluminio brillante o pintado de color blanco.

^{EN} — Evolution of the iconic O-Line, the new suspended unit is a PMMA plate with a characteristic micro laser-engraved pattern (OptiLight Technology™) that distributes light downwards. The pattern is aesthetically elegant when light is on, becoming completely transparent when light is off. Mounting plate available in white coated or in glossy aluminium finishes.

^{DE} — Bei dieser Weiterentwicklung der Ikone O-Line ist der hängende Leuchtenkörper ein Element aus PMMA mit Mikro-Lasergravuren (OptiLight Technology™), die das Licht auf die darunter liegende Fläche abstrahlen. Die Textur zeichnet bei eingeschalteter Leuchte durch ihre ästhetische Eleganz aus und macht den Diffusor bei ausgeschaltetem Licht transparent und praktisch unsichtbar. Mit Fassung aus glänzendem Aluminium oder mit Lackierung in Weiß.

^{PY} — Новая версия легендарного O-Line, подвешенный корпус которой представляет собой пластину из ПММА с лазерными микронасечками (технология OptiLight Technology™), которые направляют свет на нижележащую плоскость. Плетение выглядит очень элегантно при включенном светильнике, в то время как при выключенном свете его совершенно не видно, а рассеиватель кажется прозрачным. Рама из блестящего или выкрашенного белой краской алюминия.

Xilema

^{IT} — Perfezione geometrica e tecnologia.
Corpo in alluminio lucido o con finitura bianca, diffusore in PMMA dotato di ottica WallWasher che “lava” la parete con la sua luce indiretta morbida e soffusa. Le diverse varianti presentano soluzioni estetiche e tecnologiche ricercate.

^{FR} — Perfection géométrique et technologie.
Corps en aluminium brillant ou avec finition blanche, diffuseur en PMMA équipé d'une optique WallWasher qui «lave» le mur avec sa lumière indirecte, douce et diffuse. Les différentes variantes présentent des solutions esthétiques et technologiques recherchées.

^{ES} — Perfección geométrica y tecnología.
Cuerpo de aluminio brillante o con acabado blanco, difusor de PMMA con óptica WallWasher, que “lava” la pared con su luz indirecta suave y teñida. Las distintas variantes presentan soluciones estéticas y tecnológicas refinadas.

^{EN} — Geometric and technology perfection.
Aluminum casing available in white or glossy aluminum versions, equipped with PMMA diffuser with WallWasher optics that “wash” the wall with an indirect smooth and diffusive lighting. Different versions suitable for sophisticated aesthetic and technological solutions.

^{DE} — Geometrische und technologische Perfektion. Mit Gehäuse aus glänzendem Aluminium oder mit weißer Oberfläche und Diffusor aus PMMA mit WallWasher Optik, die die Wände mit ihrem weichen und diffusen, indirekten Licht “wäscht”. Die verschiedenen Ausführungen zeichnen sich durch ihr hochwertiges Design und die moderne Technologie aus.

^{PY} — Совершенство геометрических форм и высокая технология. Корпус с белой или блестящей алюминиевой отделкой, рассеиватель из ПММА, снабженный оптической системой WallWasher, “омывающей” стены своим мягким приглушенным отраженным светом. Различные варианты представляют изысканный внешний вид и передовые технологии.

Kimia

^{IT} — Luce fortemente personale. Il piccolo disco illuminante ruota e si muove liberamente lungo l'asta in metallo verniciato bianco o nero. L'illuminazione può variare a piacimento: ambientale, volta ad enfatizzare pareti materiche, oppure diretta a supportare la lettura.

^{FR} — Une lumière fortement personnelle. Le petit disque lumineux tourne et se déplace librement le long de la tige en métal verni blanc ou noir. L'éclairage peut varier à l'envie : environnemental, pour souligner la matière des murs, ou direct pour faciliter la lecture.

^{ES} — Una luz muy personal. El disco pequeño de iluminación gira y se mueve libremente por la barra de metal pintado de color blanco o negro. La iluminación sigue el gusto personal: ambiental, para enfatizar paredes matéricas, o directa para la lectura.

^{EN} — Strongly individual lighting. The small lighting disc rotates and moves freely along the pole in white or black coated metal. Lighting can vary as much as you like: atmospheric, directed to emphasize textural walls, or to assist in reading.

^{DE} — Ein Licht mit einer starken Persönlichkeit. Die kleine leuchtende Scheibe lässt sich drehen und frei auf der Stange aus Metall mit Lackierung in Weiß oder Schwarz bewegen. Eine Beleuchtung, die ganz nach Belieben angepasst werden kann, als Umgebungsbeleuchtung, zum Hervorheben von materischen Wänden oder als direktes Licht zum Lesen.

^{PY} — Светильник с яркой индивидуальностью. Маленький световой диск вращается и свободно перемещается по стержню из металла, выкрашенному в белый или черный цвет. Вы можете менять освещение в связи с вашими предпочтениями: общее освещение, направленное на подчеркивание фактурных стен, или же прямой свет для чтения.

Hinomaru

^{IT} — Circolare come un sole di impercettibile profondità. Ricercate finiture impreziosiscono il corpo in metallo dallo spessore minimo, solo 2,4 cm. La tecnologia Opti-3 HoneyComb distribuisce la luce grazie ad un diffusore "a tre strati" composto da un recuperatore di flusso, un pannello intermedio in PMMA con microincisioni al laser e un ultimo pannello in PMMA con texture a nido d'ape.

^{FR} — Rond comme un soleil d'une imperceptible profondeur. Des finitions raffinées rehaussent le corps en métal d'une épaisseur minimale de seulement 2,4 cm. La technologie Opti-3 HoneyComb distribue la lumière grâce à un diffuseur « à trois épaisseurs » composé d'un récupérateur de flux, d'un panneau intermédiaire en PMMA avec micro-incisions au laser et d'un dernier panneau en PMMA avec une texture en nid d'abeille.

^{ES} — Circular como un sol con una profundidad imperceptible. Acabados refinados embellecen el cuerpo de metal con un grosor mínimo, solamente 2,4 cm. La tecnología Opti-3 HoneyComb distribuye la luz mediante un difusor "de tres capas", compuesto por un recuperador de flujo, un panel intermedio de PMMA con micrograbados al láser y un último panel de PMMA con una textura alveolar.

^{EN} — Round like a sun of imperceptible depth. Refined finishes embellish the metal casing with a minimum thickness, only 2.4 cm. Opti-3 HoneyComb technology distributes light thanks to a "three-layers" diffuser made up of a flow recuperator, an intermediate PMMA panel with a micro laser-engraved pattern and a last honeycomb PMMA panel.

^{DE} — Rund wie eine Sonne ohne wahrnehmbare Tiefe. Hochwertige Oberflächen verschönern das Gehäuse aus Metall mit minimaler Dicke von nur 2,4 cm. Die Opti-3 HoneyComb Technologie strahlt das Licht durch einen "dreischichtigen" Diffusor ab, der aus einem Reflektorblech, einem mittleren Element aus PMMA mit Laser-Mikrogravur und einem weiteren Element aus opalem PMMA besteht mit Wabenstruktur.

^{PY} — Круглый как солнце, он обладает неосязаемой глубиной. Изысканная отделка украшает металлический корпус толщиной всего 2,4 см. Технология Opti-3 HoneyComb распределяет свет благодаря "трехслойному" рассеивателю, состоящему из рекуператора потолка, промежуточной панели из ПММА с лазерными микронасечками и последней панели из ПММА с сотовой структурой.

Madame Blanche

IT — Due bianchi anelli di alluminio fluttuano paralleli. L'anello inferiore rivolge il fascio luminoso verso il diffusore soprastante, orientabile, dalla avvolgente forma concava, per un'interazione di luce indiretta e omogenea. Una sospensione eclettica, anche nella versione con contrappeso.

FR — Deux anneaux blancs de lumière d'aluminium flottent parallèlement. L'anneau inférieur dirige le faisceau lumineux vers le diffuseur orientable, à la forme concave et enveloppante, qui se trouve au-dessus, pour une interaction de lumière indirecte et homogène. Une suspension éclectique, même dans la version avec contrepoids.

ES — Dos anillos blancos de aluminio fluctúan paralelamente. El anillo inferior dirige el haz luminoso hacia el difusor superior, orientable, con una forma envolvente cóncava, para lograr una interacción de luz indirecta y homogénea. Una lámpara colgante ecléctica, también en la versión con contrapeso.

EN — Two white parallel flying lighting rings. The lower ring directs the light beam toward the upper adjustable diffuser, defined by a wrapped concavity, an interaction between indirect and homogeneous lighting. An eclectic suspension, available also in the version enriched by rings tilting and tensioned by a floor weight.

DE — Zwei Ringe aus Licht, die parallel zueinander schweben. Der untere Ring richtet den Lichtstrahl auf den darüber befindlichen, schwenkbaren Diffusor mit konkaver Form, für eine gleichmäßige Beleuchtung mit indirektem Licht. Eine eklektische Hängeleuchte, auch in der Version mit Gegengewicht.

PY — Два параллельно парящих кольца света. Нижнее кольцо направляет световой пучок на расположенный выше поворотный рассеиватель вогнутой формы, создавая отраженный однородный свет. Эклектичный подвес, также в варианте с противовесом.

Branch

^{IT} — Branch è una fenditura nello spazio, una linea affusolata in alluminio lucido, verniciato bianco oppure nero, evanescente grazie alla doppia emissione. La luce diretta verso il basso è omogenea e precisa, quella indiretta è avvolgente.

^{FR} — Branch est une fente dans l'espace, une ligne fuselée en aluminium brillant, verni blanc ou noir, évanescence grâce à sa double émission. La lumière directe vers le bas est homogène et précise, celle indirecte est enveloppante.

^{ES} — Branch es una hendidura en el espacio, una línea ahusada de aluminio brillante, pintado de color blanco o negro, evanescente creada por la emisión doble. La luz directa hacia abajo es homogénea y precisa, la indirecta es envolvente.

^{EN} — Branch is a space shift, a straight line in glossy aluminum, available in white or black coating. A vanishing bar thanks to its double emission. Direct downward light is homogeneous and precise while indirect one is wrapping.

^{DE} — Branch ist ein Riss im Raum, eine schmale, langgezogene Linie aus glänzendem Aluminium mit Lackierung in Weiß oder Schwarz, die durch die zweiflammige Lichtquelle entsteht. Das nach unten gerichtete direkte Licht ist gleichmäßig und präzise, das indirekte Licht komfortabel.

^{PY} — Branch – это прорезь в пространстве, тонкая линия из блестящего или выкрашенного белой или черной краской, исчезающая из вида благодаря двойному излучению. Прямой свет, направленный вниз, является однородным и точным, а отраженный свет обволакивающим.

Eclips

^{IT} — Un'eclisse che oscura e dischiude una sorgente di luce perfetta. La lampada si può aprire a ventaglio, gli elementi in alluminio verniciato ruotano così come il diffusore in vetro bianco acidato, formando effetti chiaroscurali obliqui e inaspettati. Disponibile in diverse preziose combinazioni cromatiche.

^{FR} — Une éclipse qui cache et renferme une source de lumière parfaite. Une lampe qui peut s'ouvrir en éventail, les éléments en aluminium verni tournent ainsi que le diffuseur en verre blanc dépoli, créant des effets clairs-obscurs obliques et inattendus. Disponible dans différentes combinaisons chromatiques précieuses.

^{ES} — Un eclipse, que oscurece y descubre una fuente de luz perfecta. La lámpara se puede abrir en abanico, los elementos de aluminio pintado giran al igual que el difusor de cristal blanco acidado, para formar efectos de claroscuro oblicuos e inesperados. Disponible en distintas combinaciones cromáticas exquisitas.

^{EN} — An eclipse that obscures and spreads up a perfect light. Eclips fans out with its rotating aluminum elements and the acid-etched white glass diffuser which create chiaroscuro oblique and unexpected lighting effects. Available in several precious chromatic combinations.

^{DE} — Eine Eklipse, die eine perfekte Lichtquelle verdunkelt und freigibt. Die Leuchte kann wie ein Fächer geöffnet werden, ihre Elemente aus lackiertem Aluminium und der Diffusor aus weißem Ätztglas lassen sich drehen und erzeugen schräge und überraschende Hell-Dunkel-Muster. Erhältlich in verschiedenen hochwertigen Farbkombinationen.

^{PY} — Затмение, которое затемняет и раскрывает идеальный источник света. Светильник может открываться веером, а элементы из крашеного алюминия, а также рассеиватель из белого травленого стекла вращаются, создавая необычные косые эффекты светотени. Предлагается в различных цветовых комбинациях.

Dunia

^{IT} — Un levigato masso luminoso dalle linee delicate, che origina un sapiente gioco di luci e ombre. Il corpo lampada in polietilene naturale e il diffusore, disponibile nelle varianti oro rosa, bianco opalino e con texture microprismatica, offrono una visione dinamica della luce.

^{FR} — Un rocher poli et lumineux aux lignes délicates qui crée un savant jeu d'ombres et de lumières. Le corps de la lampe en polyéthylène naturel et le diffuseur, disponible dans la variante or rose, blanc opalin ou avec texture microprismatique, offrent une vision dynamique de la lumière.

^{ES} — Una masa pulida luminosa con líneas delicadas, que origina un juego sabio de luces y sombras. El cuerpo de la lámpara de polietileno natural y el difusor, disponible en las variantes oro rosa, blanco opalino y con texturas microprismáticas, ofrece una visión dinámica de la luz.

^{EN} — A polished luminous pebble defined by smooth lines. It creates interesting chiaroscuro games. The natural polyethylene casing and its diffuser are available in pink gold, opal white and with micro-prismatic texture, offering a dynamic light vision.

^{DE} — Ein glatt geschliffener Körper mit zarten Linien, der ein elegantes Spiel aus Licht und Schatten erzeugt. Der Leuchtenkörper ist aus natürlichem Polyethylen und der Diffusor, der in den Varianten mit Oberfläche aus Rotgold oder opalem Weiß mikroprismatischer Textur erhältlich ist, bietet eine dynamische Vision des Lichts.

^{РУ} — Гладкий световой валун с деликатными линиями, создающий умелую игру света и тени. Корпус светильника из натурального полиэтилена и рассеиватель, предлагаемый в различных вариантах – розовое золото, опаловый белый или с микропризматической текстурой – придает свету динамичный облик.

Dynamic

^{IT} — Dynamic è un'applique dalla forma organica, dalla luce vibrante sotto al diffusore in vetro soffiato acidato. Il raffinato bianco opalino, ottenuto dalla soffiatura dei maestri vetrai muranesi, garantisce un flusso omogeneo e diffuso all'interno dello spazio.

^{FR} — Dynamic est une applique à la forme organique. La lumière vibre sous le diffuseur en verre soufflé dépoli. Le blanc opalin raffiné, obtenu selon la technique de soufflage des maîtres verriers de Murano, garantit un flux homogène et diffus à l'intérieur de l'espace.

^{ES} — Dynamic es un aplique con forma orgánica, con luz vibrante bajo el difusor de vidrio soplado acidado. El refinado blanco opalino, obtenido mediante soplado por los maestros del vidrio de Murano, asegura un flujo homogéneo y difuso en el interior del espacio.

^{EN} — Dynamic is an organic shape wall light; light vibrates under the acid-etched blown glass. The refined opal white, obtained by the glassblowing of Murano Venetian masters, grants a homogeneous and diffusive light beam around the space.

^{DE} — Dynamic ist eine Wandleuchte mit organischer Form und einem Licht, das unter dem Diffusor aus geblasenem Milchglas zu vibrieren scheint. Das elegante opale Milchglas wird von den Glasbläsermeistern auf Murano geblasen und garantiert für eine gleichmäßige Verbreitung des Lichts im Raum.

^{PY} — Dynamic – это бра органичной формы, с рассеивателем из травленого дутого стекла, под которым пульсирует свет. Изысканный опаловый белый цвет, полученный при помощи техники дутья муранскими мастерами стекольного дела, обеспечивает однородный свет, рассеиваемый внутри пространства.

Bulbo collection

IT — Le lampade Bulbo Collection emettono una luce colorata, frutto della combinazione di frequenze luminose selezionate per attivare il processo di fotosintesi e stimolare la crescita delle piante anche in ambienti poco illuminati o privi di luce. Lo speciale spettro luminoso, studiato presso i laboratori del Dipartimento di Scienze Agrarie dell'Università di Bologna - Alma Mater Studiorum, riproduce ciò che naturalmente le piante assorbono dalla luce del sole. Per i migliori risultati, ogni lampada andrà accesa e spenta regolarmente per riprodurre il naturale ciclo giorno/notte. Consigliato: 15 ore ON e 9 ore OFF.

DE — Die Leuchten der Kollektion Bulbo strahlen ein farbiges Licht ab, das aus verschiedenen Lichtfrequenzen besteht, die ausgewählt wurden, um die Photosynthese und das Pflanzenwachstum auch in Räumen mit wenig Tageslicht oder ohne Tageslicht anzuregen. Das spezielle Lichtspektrum, das in den Labors der Fakultät für Agrarwissenschaften der Universität Bologna, Alma Mater Studiorum, erforscht wird, entspricht dem von den Pflanzen aufgenommenen Sonnenlicht. Die besten Ergebnisse lassen sich erzielen, wenn die Lampe regelmäßig ein- und ausgeschaltet wird, um den natürlichen Tag- und Nachtzyklus nachzuahmen. Vorgeschlagen: 15 Stunden ON und 9 Stunden OFF.

EN — Thanks to their researched light frequencies, the Bulbo Collection products give plants the ideal light nutrition they need. The unique light spectrum, result of scientific researches in collaboration with the Department of Agricultural Sciences at the University of Bologna, reproduces what plants naturally absorb from the light of the sun and activates photosynthesis also in dark spaces. For the best results each lamp must be turned on and off to reproduce a natural day/night cycle. Suggested: 15 hours ON and 9 hours OFF.

ES — Las lámparas Bulbo Collection emiten una luz de color, obtenida por la combinación de frecuencias luminosas, seleccionadas para activar el proceso de fotosíntesis y estimular el crecimiento de las plantas también en ambientes con poca iluminación o sin luz. El espectro luminoso especial, estudiado en los laboratorios del Departamento de Agronomía de la Universidad de Bolonia - Alma Mater Studiorum, reproduce lo que, naturalmente, las plantas absorben de la luz solar. Para obtener los mejores resultados, cada lámpara se ha de encender y apagar regularmente para reproducir el ciclo natural día/noche. Sugerido: 15 horas ON y 9 horas OFF.

FR — Les lampes de la collection Bulbo émettent une lumière colorée, fruit de la combinaison de fréquences lumineuses sélectionnées pour activer le processus de photosynthèse et stimuler la croissance des plantes, même dans des espaces peu éclairés ou sans lumière. Le spectre lumineux spécial, étudié dans les laboratoires du Département des Sciences Agronomiques de l'Université de Bologne, Alma Mater Studiorum, reproduit ce que les plantes absorbent naturellement de la lumière du soleil. Pour de meilleurs résultats, chaque lampe devra être allumée et éteinte régulièrement pour reproduire le cycle naturel jour/nuit. Suggéré: 15 heures ON et 9 heures OFF.

PY — Светильники Bulbo Collection излучают цветной свет, результат комбинации отобранных световых частот, которые запускают процесс фотосинтеза и стимулируют рост растений, даже в малоосвещенных помещениях и помещениях, лишенных естественного света. Особый световой спектр, изученный в лабораториях Отделения сельскохозяйственных наук университета г. Болонья Alma Mater Studiorum, воспроизводит то, что растения обычно поглощают с солнечным светом. Результатов следует регулярно включать и выключать лампы с целью воспроизведения цикла день/ночь. Предлагается: 15 часов ON и 9 часов OFF.

Symbols

	Indoor installation		Driver not included
	Outdoor installation		Installation hole
	Wall mounting		Double emission luminaire
	Ground mounting		Device suitable to be mounted on furniture
	Ceiling mounting		Device suitable to be mounted on normally flammable surfaces (EN 60598)
	Ceiling or wall mounting		DMX 512
	Recessed mounting - ceiling		DALI / Push DIM (except for codes 8185, 8186, 8187, 8188 - dimmable only in DALI)
	Recessed mounting - wall		Phase-Cut
	Protection class (IEC 60529) against foreign bodies and water		Push DIM
	Directional light beam		Warm Tune
	Tilting light beam	c.c.	Constant Current
	Power supply cable included	c.v.	Constant Voltage
	Class I - IEC protection class		Featuring timer
	Class II - IEC protection class		Dimmer inside the body lamp
	Class III - IEC protection class		Dimmer outside the body lamp
	Driver included		

IT — Tutti gli articoli sono in classe energetica A+++. I lumen indicati si riferiscono all'emissione della sorgente. Gli schemi di collegamento per gli articoli dell'elettronica sono disponibili all'interno della documentazione tecnica.

DE — Alle Artikel gehören zur Energieeffizienzklasse A+++. Der angegebene Wert in Lumen bezieht sich auf die Abstrahlung der Lichtquelle. Die Anschlusspläne der elektronischen Artikel sind in der technischen Dokumentation enthalten.

EN — All articles belong to energy class A+++. The lumens indicated refer to the light source emission. The connection diagrams for electronics articles are included in the technical documentation.

ES — Todos los artículos son de clase energética A+++. Los lúmenes indicados se refieren a la emisión de la fuente luminosa. Los esquemas de conexión para los artículos de la electrónica están disponibles dentro de la documentación técnica.

FR — Tous les articles sont en classe énergétique A+++. Les lumens indiqués se réfèrent à l'émission de la source lumineuse. Les schémas de branchement pour les articles électroniques sont disponibles à l'intérieur de la documentation technique.

PY — Все артикулы имеют класс энергопотребления A+++. Указанное значение в люменах относится к излучению источника света. Схемы соединений для электронных изделий приведены в технической документации.
